

**Appendix 5: Workshop Participants' Details**

22 women and 18 men participated in the workshops for this evaluation, in two groups according to gender. Ages ranged from 15 years to 65 years, with the averages for each group being 24 years for women and 41 years for men. The average participation within each group was 5 attendances out of the 7 workshops undertaken.

The following charts show the breakdown in terms of education and present occupation. In Bangladesh, Primary schooling occurs in Classes 1 to V and Secondary schooling from Classes VI to X, finishing with the Secondary School Certificate (SSC) examination. The Higher School Certificate (HSC) follows after two more years of college.

**Women (22 participants):**

**Men (18 participants):**
